Professional Summary

Motivated and detail-oriented **Business Information Systems** student with comprehensive training in **Database Management** and **Front-End Development (React & Next.js)**. An innovative technical problem-solver and expert **AI** user with a profound capability in **Prompt Engineering** to architect **smart workflows**, **generate creative ideas**, and resolve complex bugs. Proven track record in digital transformation, successfully turning manual paper-based processes into automated, fully integrated digital solutions and custom **ERP-like systems** using **Google Apps Script and Advanced Databases**. Driven by an unyielding passion for **self-learning**, continuous development, and cybersecurity, I possess a versatile skillset in multiple **programming languages (C++, C#, Java)** and **data analysis**. Currently seeking to leverage my expert automation, development, and analytical capabilities in a progressive **Web Development, IT, or Digital Transformation** role.

Education

- **Modern Academy – Cairo, Egypt**
Bachelor of Business Information Systems (Expected 2026)
 - Bachelor of Commerce
 - Major: Business Information Systems
 - Cumulative Grade (**GPA**): **3.45 (Excellent)**

Employment experience & Training

- **Front-End Development Trainee – Div Academy**
Aug 2025
 - Completed intensive training on React and Next.js, developing interactive and responsive web applications.
 - Built and deployed multiple front-end projects, focusing on usability and performance.
 - Gained practical skills in modern JavaScript frameworks and UI/UX design principles.
- **Database Advanced Trainee – IT Gate, Cairo**
Jul 2024
 - Trained on advanced concepts of **SQL Server**, database design, queries, and stored procedures.
 - Applied normalization, indexing, and performance optimization techniques.
 - Enhanced practical experience in database management and reporting.

Projects

- **Front-End Web Applications (React/Next.js)**: Developed several interactive projects during training, focusing on responsive design and user experience
- **Database Management Solutions**: Designed and optimized SQL databases as part of advanced training
- **Restaurant Pre-Order App (Concept)**: Proposed a graduation project idea enabling restaurants to display menus, allow pre-orders, and support online payments
- **Clinic Booking & Reservation Management Platform**: A full-stack web

application developed entirely using **Google Apps Script and Google Sheets**. Designed and programmed the user interface (**UI**) and backend logic within Apps Script to enable patient appointment scheduling, live availability tracking, and a comprehensive management dashboard for clinic administrators.

- **Church Education Data Management System:** An integrated management system built with **Google Apps Script and Google Sheets**. Features a custom-built user interface (**UI**) to streamline attendance tracking, member profiling, and automated reporting, transforming manual administrative tasks into an efficient digital workflow.
- **Advanced AI & Prompt Engineering Workflows:** Designed and deployed customized workflows leveraging modern and **Local LLMs** (Ollama/DeepSeek/Llama) to automate code generation, conduct rapid technical troubleshooting, and optimize system logic.

Courses & Certifications

- **Self-Learning: Advanced AI Usage & Prompt Engineering, Google Apps Script, Excel, Access, Word, C++, C#, HTML, CSS, JavaScript**
- **Courses in Management, Organization, and Time Management**

Core skills

- **Technical Skills:** SQL, HTML, CSS, JavaScript, React, Next.js, Bootstrap, Tailwind, WordPress, MS Office (Excel, Word, PowerPoint).
- **Database Skills:** SQL Server, Database Design, Queries, Reports, Data Normalization.
- **IT Skills:** AI Tools Integration, Local LLMs Configuration, Google Apps Script Automation, Website development, troubleshooting, and digital research.
- **Soft Skills:** Advanced Problem-solving, teamwork, generate creative ideas, communication, leadership, organization, and time management.
- **Interest Areas:** Cyber Security, Web Development, Intelligent Automation, Databases.

Language

- **Arabic (Native).**
- **English (Good).**
